## Why You should trade with C. M. COLE.

**BECAUSE** you get your money's worth. Good, honest values at small profits make big sellings. We do not lay claim to the fact that we buy our goods cheaper than any other merchant in Phillipsburg—that would be a prevarication—every one knows that money is of equal value in this country. What we do claim and what we intend to show YOU, is that the smaller the profit, the larger and quicker the sales, the larger our acquaintance becomes.

We want to make friends, we want you to become one of our friends, we want your trade, and if we stick strictly to these methods we will get it. Ever since the first day we started in business about six years ago, we have steadily increased our trade and we shall endeavor to so merit your trade that we can keep on growing until some day in the not very distant future we can have a store that our patrons can point to with pride and say, "there is the largest store in town and a store where can get courteous treatment." With your help and "Good honest values at small profits" as our guiding star we will attain that end.

Our fall and winter goods are beginning to arrive. A fine line of boots and shoes just received; come in and we can fit you. I most heartily thank my old friends and customers who have so faithfully stood by me in the past and courteously invite you and all your friends when you come to town to come in and trade with me and I will try and do you good.

## D. F. YOUNG.

The people's party and democratic nominee for sheriff, David F. Young, was born in Lisbon, Iowa, April 9, 1858, and is consequently 41 years old. He lived in town until 9 years of age when he moved upon a farm and has since engaged in farming. He came to Kansas in the spring of 1879, landing in this county with only fifty cents capital. He borrowed money and entered the homestead which he still owns. For the next three years he alternately worked out by the month and cultivated his farm. In the years of '90 and '91 he conducted a successful hardware business in Long Island, but finding it too confining for his health, he returned again to farming. He now owns one of the best improved upland farms, consisting of 560 acres, in the county.

Mr. Young has a good education, and his experience in business fits him for the clerical part of the duties of the office. He is popular among his friends and acquaintances everywhere. He has always been an independent in politics and identified himself with the people's party in 1890. He will secure a heavy vote from all parties in the northwest part of the county and will undoubtedly be elected. He is married and has a family of five children.

## T. L. COOK.

Thomas L. Cook the people's party and democratic candidate for register of deeds of Phillips county, was born July 13, 1853, at Reese's Mill, Boone county, Indiana. He was educated in the public schools of his native state. At the age of nineteen he began teaching and followed this vocation until 1874, when he emigrated to Smith county, Kansas, where he entered a homestead, and lived upon it, teaching school in the winters and farming during the summers for eleven years. He was cashier of the bank at Kensington from the time the town was founded until 1891, when he came to this county and has resided here ever since. He was engaged as an abstractor nearly three years and the remainder of the time has worked for the Rock Island railroad as clerk in the motive power and car departments.

Mr. Cook was always a republican until 1890 when he joined the people's party, and has since been a staunch supporter of its principles—voting and working for its candidates. He has an excellent education and is thoroughly familiar with all the county record books. Mr. Cook is popular and will make a most efficient public officer after his election.

## Will Slap Him.

"I shall slap the first man that calls me a copperhead," said John W.

Breidenthal this week. "I don't care how big he is," Mr. Breidenthal resumed: "I resent having my loyalty and my patriotism called into question. I could haul off and hit my accuser hard, but that would not express my sentiments toward him. I would only slap him."

Like a good many other anti-expansionists in Kansas—and their name is legion—Mr. Breidenthal objects to being classed as a traitor merely because down in his heart, he cannot approve of the president's policy in the Philippines. "The administration," says Mr. Breidenthal, "is made up of our servants. The president and his cabinet are subject to the people's orders, not we to their orders. I have just as much right to criticize a hired man who is harvesting my crop. The idea that we can't differ from McKinley without being traitors—Bah!"

The bank commissioner closed his observations with a few remarks that might be construed as a timely warning to a few giddy editorial scribblers who regard "copperheads," "traitors" and "allies of Agundado" as a crushing answer to all logic of anti-imperialism.—Kansas Democrat.

## Labor Welcomes Them.

A representative of the Chicago Retail Merchants' Association in a meeting of workmen at Chicago Commons appealed to them for aid in the "battle with the forces of concentrated greed." At the close of his appeal an old man arose, and in a simple, earnest manner said to the speaker: "We bear you no malice, Mr. Merchant, but now it is your turn. Thirty years ago the concentration of capital in machinery began to crowd down men of my class, and we appealed to you for sympathy and help. You plainly told us that it was the law of the survival of the fittest which had overtaken us. You were right. You small retail dealers and manufacturers realize now how right you were. The trusts and the monopolies have pushed you out of business, and you must consort with labor against the combinations of capital. You call the trusts 'concentrated greed.' No doubt you are right. We won't dispute the fact that they are open to at least that inference, and to prove our good will and sympathy I move the following resolution in your behalf:

"Whereas, Misery loves company, therefore,  
"Resolved, That we welcome the retail merchant and small manufacturer to the ranks of the unemployed."—Youth's Companion

—WANTED:—To buy a pair of driving horses. Enquire of  
J. F. Morse.

## Prosperity.(?)

A circular letter sent to hardware dealers by the Detroit Stove Works states that materials used in the manufacture of stoves and hardware have advanced since last summer as follows:

Pig iron..... 125 per cent	Steel..... 100 per cent
Copper..... 81 "	Tin plate..... 76 "
Wire..... 103 "	Nails..... 170 "
Asbestos..... 31 "	Boiler..... 111 "
Lumber..... 57 "	Pipe..... 194 "
Pipe fittings 111 "	Rivets..... 110 "
Oil..... 106 "	

They go on to say that they have also shortened the terms on most of the staples to thirty days and with either one per cent or no discount for cash. Stoves are advanced in price and terms shortened from thirty days and 5 per cent to ten days and 2 per cent. In the face of these enormous rises in prices to the consumer and cutting off profits to the dealer, how can people longer support the party of the trusts? Have farm products and labor advanced 100 per cent since last summer?

## Raising But Not Resurrecting.

The are raising corn in Kansas,  
And the fields, like forest lands,  
Whisper eagerly of plenty  
For the million pairs of hands.  
They can raise such corn in Kansas  
That the frightened fancy tingles  
With the horrid apprehension  
That they might raise even Ingalls.  
—Chicago Record.

News from Samoa indicates another outbreak of the natives in the near future.

RUSSIANS are beginning to organize forces and go to South Africa to assist Oom Paul in the war with Great Britain.

STEWART'S BAZO of Smith Center has now been changed to the Smith County Democrat, and is being run as a republican annex.

In last Sunday's Capital General Hudson calls Cy Leland the "leader of the most unscrupulous gang that ever cursed the republican party of Kansas."

HASKELL'S boom for congressman-at-large doesn't mean much more than the first step of the republican politicians toward the retirement of Mr. Reeder.

THE democratic ticket has been denied a place on the ballot in Doniphan county by the republican officials at the behest of Cy Leland. Democrats have no rights which Kansas republicans are bound to respect.

WITH one hand President McKinley cuts down the pensions of the old soldiers who fought to destroy slavery in this country, and with the other signs a treaty with the Sultan of Sulu admitting slavery again. What do the old soldiers of Phillips county think of that?

THE young people's of Smith Center have sent a batch of resolutions to Congressman Reeder calling upon that gentleman to vote against seating Congressman Roberts of Utah on account of the number of his wives. Wonder why these precocious statesmen and stateswomen don't advise President McKinley about the Sultan of Sulu and his hundred wives, and numerous slaves?

At a soldier's reunion in Ohio a few days ago resolutions denouncing McKinley for keeping Evans at the head of the pension department were passed without a dissenting vote. They also called upon the president to discharge Evans immediately or they would all vote for McLean. The resolutions characterized McKinley and Evans as worse than Cleveland and Hoke Smith.

A DISPATCH from Salvador, one of the Central American states, recites that its people are enjoying great prosperity—greater than ever before known. Now it will be in order for the republican postoffice sheets to claim that the election of McKinley caused the bountiful crops and prolific output of the silver mines, which together are responsible for the prosperous times in Salvador.

Mrs. Diggs and her little brown brother across the water may exchange sympathies at shorter range when peace is declared and Kansas people begin to take homesteads in the Philippines.—Logan Republican.

It is surprising that a man as intelligent as the Republican editor should get the idea that the Philippine islands will ever be open to settlement by homesteaders as the great west has been. There are already ten millions of people in the islands, their population a little more than seven times as dense as Kansas.

You might as well talk of taking up homesteads in Rhode Island and New Jersey. Unless the present owners be killed off there will never be any vacant land for a homesteader in the Philippines. When the American people realize the situation as it is, that there is no room or inducement for any Americans except the capitalists in this island group, and that their cheap labor will reduce wages in this country to a dead level with European and Asiatic peoples, they will more than ever oppose expansion and its attendant evil imperialism.

THE Sultan of Sulu, with his harem, and his hundreds of slaves, is now on the McKinley pay roll, and the taxpayers of this country foot the bills.

THOMAS TAGGART, democrat, was elected mayor of Indianapolis by a large majority last week. Expansion and the Philippine war were made issues by the republicans. Indianapolis is normally a republican city.

When a man gets worsted in an argument he begins to abuse and call names. Notice that Royce calls the editors of the HERALD Filipinos. If there was any merit in getting the best of Royce we would feel quite flattered, as he seems to have it bad.

General Hudson has called upon the fusion party to make the nomination of Fred Funston as Congressman-at-Large unanimous. Some of them suggest that it will be done if the Republicans will make the nomination of John Breidenthal for governor unanimous.—Advocate.

THE trusts are fining every man who wants to build a house nowadays, and pretty heavily, too. The advance in the prices of lumber, nails and glass ranges from 35 to 100 per cent. Perhaps you like such conditions. If you do you will, of course, vote the republican ticket next year and help elect the candidate who has the support of the trusts.—Beloit Call.

A good many people besides populists have noticed that Manager Royce and his followers are trying to move heaven and earth for Yerton and Rambo but are very lukewarm toward Reynolds and Cheadle. Wonder if these latter gentlemen object to being bossed by the aforesaid manager? Or does Royce's bitter opposition to Messrs. Smith and Thornton have anything to do with it?

FUNNY ain't it. When Royce speaks of populists contributing anything for campaign funds, he always thinks of how much Brussels carpet it will buy for the "leaders." But when republicans are asked for subscriptions he never says a word about wine suppers, champagne blowouts and expensive office furniture for the republican "managers," but insists the money is for "legitimate expenses, sir, perfectly legitimate."

Why is it that the authorities have delayed the mustering out of the Twentieth Kansas boys so long? They are not to be mustered out until November 3rd, and are not expected to arrive in Topeka until after the election. Can it be possible Secretary Root has been prevailed upon to hold them, so that their influence might not be felt in time to affect the election? Evidently the soldier boys are not such ardent expansionists as was expected.

THE appellate court last week at Concordia decided that Gov. Stanley had illegally removed Regents Limbocker and Hoffman from office. A writ of ouster was issued against Yoe and McDowell. Hoffman and Limbocker were re-instated. So absolutely partisan and unfair was Gov. Stanley's action in the matter that even Gen. Hudson of the Capital protested against such a high handed outrage, but to no purpose. Now the great wrong inflicted upon one of the best and most necessary state institutions is partially righted, but the injury done to the school will be felt for years. The case will be carried to the supreme court.

## A LIMA LIAN'S TESTIMONY.

I have obtained excellent results from the use of Foley's Kidney Cure. It relieved my back-ache and severe pain over the hips. It toned up my system and gave me new vim and energy. I regard it as an honest and reliable remedy for all kidney diseases. It makes no false claims but does what it says when given a fair trial. I certainly recommend it.

It is either true that governments derive their just powers from the consent of the governed, as our Declaration of Independence declares, or else they must derive a just power to rule from some other source. What other source can there be? No human source, certainly. If you deny the principle that all men have a right to govern themselves, then you must hold that a few who are better, or wiser, or richer, or more powerful than the rest, have a divine right to govern. It is either the divine right of kings to rule the people, or the divine right of all the people to rule themselves. Now, reader, on this proposition where do you stand?—Beloit Call.

THE democrats platforms in Massachusetts, Ohio and Iowa all three declare for the initiative and referendum, for the election of United States senators by the direct vote of the people, for municipal ownership of public utilities; for the free coinage of both gold and silver at the ratio of 16 to 1, and favor taking the banks out of the governing business by abolishing banks of issue. Notwithstanding these planks are identical with populist demands, a few fool post office sheets in this vicinity still insist that pops and democrats "surrender their principles for the sake of office" when they vote for the same candidates. Truly our friends the enemy are hard up for "argument."

The Gazette is pained to observe that so far a newspaper as the Topeka Capital, which properly exults over the appointment of D. W. Eastman of Emporia, fails to give the credit for the appointment to Cyrus Leland and Senator Baker. Can it be that the Capital is again Leland so far that it will not treat him with the ordinary courtesy due from one republican to another? The Gazette finds it hard to believe that.—Emporia Gazette.

Don't get too gay, Billy. Mr. Leland has no use for Mr. Eastman or men like him. The endorsements given Mr. Eastman for supervisor of census of the Fourth district would through Congressman Miller have secured the appointment. Mr. Eastman's letter, withdrawing "for harmony" in favor of Mr. Briggs, was secured by promising him the receivership of the Atchison bank. Charley Curtis blocked that game, and the gang out of pure love for Eastman, don't you see, found him another job. Cover the leader of the most unscrupulous gang that ever cursed the republican party of Kansas with your sorghum and whitewash, Billy, as much as you please—it doesn't fool anybody, but don't laugh when there is no nub to the joke.—Capital.
